

Amendments to the Claims

The following listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

Claim 1 (currently amended): A condiment container holder, comprising:

a first wall, a second wall, and a bottom,

the first wall comprising a bottom portion attached to the bottom and a top portion attached to a first top lip disposed substantially perpendicular to the first wall and extending toward the second wall,

the second wall comprising a bottom portion attached to the bottom and a top portion attached to a second top lip disposed substantially perpendicular to the second wall and extending toward the first wall,

~~a plurality of walls, each wall of said plurality of walls having a top lip on an upper portion thereof;~~

~~a bottom operatively engaged to said plurality of walls;~~

said bottom having a bottom lip on each first end portion region forming a first bottom lip and a second end region forming a second bottom lip thereof, each bottom lip being disposed substantially perpendicular to the remainder of the bottom,

wherein the first wall and the second wall are each taller than each bottom lip; and

said bottom having a condiment well formed therein,

wherein the condiment well does not permit passage of a liquid therethrough.

Claim 2 (currently amended): The condiment container holder of claim 1, wherein said top lips and said bottom lips are arranged to retain a condiment container.

Claim 3 (original): The condiment container holder of claim 1, wherein said condiment well is adapted to receive a liquid condiment.

Claim 4 (original): The condiment container holder of claim 1, wherein said bottom is operatively engaged to a releasable adhesive material.

Claim 5 (original): The condiment container holder of claim 1, wherein a wall of said plurality of walls is operatively engaged to a releasable adhesive material.

Claim 6 (new): A method of affixing a condiment container holder to a vehicle, the method comprising the steps of:

(a) providing a condiment container holder comprising a first wall, a second wall, and a bottom operatively engaged to the first and second walls, the first and second walls each having a top lip disposed substantially parallel to the bottom, the bottom having a bottom lip on each end portion thereof and the bottom having a condiment well formed therein, an adhesive material operatively engaged to at least one selected from the group consisting of: the first wall, the second wall, and the bottom,

wherein the condiment well does not permit passage of a liquid therethrough; and

(b) positioning the condiment container holder on a surface in the interior of the vehicle such that the adhesive material affixes the condiment container holder to the surface.

WPB:240549:1

Claim 7 (new): The method of claim 6, wherein the adhesive material is operably engaged to the first wall of the condiment container holder.

Claim 8 (new): The method of claim 6, wherein the adhesive material is operably engaged to the second wall of the condiment container holder.

Claim 9 (new): The method of claim 6, wherein the adhesive material is operably engaged to the bottom of the condiment container holder.

Claim 10 (new): The method of claim 6, wherein the surface is a console on the vehicle.
